

Introduction to the Share Market

The development of online share trading has made it easier than ever to invest in shares on the ASX, but for too many people there is a perception that it is complex or risky, or that you need a lot of cash to get started. This short course will introduce you to the basic way that online trading works and how to get started. It will cover new trading options designed to reduce risk and costs. It will compare share-trading to property investment and look at the pros and cons of both. The share market is a 'get rich slowly' scheme that anyone can access. The sooner you get started whilst applying the best strategies to protect against risk, the more wealth you may accumulate.

Objectives:

1. Become familiar with the share market and how to access it.
2. Be familiar with some of the risks and costs involved with the share market

Schedule: 9-12pm, Saturday 11th May

Venue: Castlemaine Community House, 30 Templeton St, Castlemaine. [Click for an online map link.](#)
